*Cut and remove W1 jumper on our board.

** These models were originally produced with the 300-3056 board, which was discontinued and replaced by the 300-3687 board. The 300-3687 board was discontinued and replaced by the 300-3950 kit, or the 300-3951 kit, which consists of a 300-3763-0x board and a wire harness. **You must use the part # of the board that is in the generator to order the proper Dinosaur replacement board.**
